S 4½ Visuals + sounds in processions  
so someone I <sup>physically</sup> ~~can't~~ feel them. Then  
is a physical sensation of the entire  
ground lifting straight up, then  
bouncing away toward the loft.  
Unknown beneath me, it breaks up. Then  
is a loud sound + lots of heat.

Es. Then the site is Krakatoa (or somewhere  
like it), or I have fixated on Krakatoa, as  
I can't seem to work through it. - too much time.
